WORK EXPERIENCES

WEB DEVELOPER

JSI Ethiopia | 2019-2021

Led the development of a COVID-19 tracking website, offering personalized tutoring to enhance user proficiency. Accountable for ongoing system maintenance, ensuring optimal functionality.

PROJECTS

- *Oversaw the development of Evangadi Student Forum, establishing a vibrant community hub with React for an engaging UI. Orchestrated a robust backend using Node.js, Express.js, and MySQL, ensuring a seamless and scalable platform*
- Directed the creation of a full-stack Amazon clone, ensuring an authentic e-commerce journey. Integrated user authentication, Firestore database, and secure Stripe payments using React, Firebase, Node.js, and Express.js. Employed a comprehensive tech stack for a seamless user experience
- Involved in projects like Abe AutoPair and the Netflix Clone.
